

If you live in Alberta you know how quickly the weather can change. One minute you are enjoying the patio and the next, you are looking for your coat. You should be able to enjoy the patio no matter what the weather.

Mad Rose Pub in Calgary, AB, has transformed their patio into a stylish and weather proof place to relax and enjoy a meal come rain or shine. The sliding glass system can open up to maximize those beautiful warm days and easily slide shut when the weather turns.

The elegant frameless glass system is customizable and low maintenance, creating a beautiful patio area for people to enjoy year round. It is a great investment that adds value to the space and the experience.

Whether you are looking to upgrade your own patio or create a desirable and stylish place for customers, Blueflower Sunrooms has a solution for you. Never let the weather interrupt your plans again. We also recommend heading over to the Mad Rose Pub to see the patio for yourselves... they serve a great pint!
